

Brigitte Fila is the Global Business Services Leader for the Public Sector at IBM Austria. In this capacity Ms Fila is responsible for Clients in Federal and Local Government, Social Security and the Healthcare Industry in Austria. She is a member of the Austrian Internet Initiative Industry Expertsteam under the sponsorship of the Austrian Federal Chancellor and the Vice-Chancellor. Ms Fila has been in Consulting in the Public Sector since 2001 and contributed to projects like the electronic file management, organisational change projects and the electronic health record feasibility study for Austria. Her current main focus is the realization of E-Finanz SZ with the Ministry of Finance and the transformation of government organisations to enable their national and international interoperability.
